

# ALBERTINA

Located in the heart of Vienna, the ALBERTINA brings together art appreciation and imperial flair. The state-of-the-art, internationally renowned museum is part of the Hofburg and housed within a historic former Habsburg residence.

Art connoisseurs and visitors to the city from all over the world will appreciate the ALBERTINA for its comprehensive displays and exceptional, varied programme of exhibitions. Austrian and international artworks, from the Middle Ages to the modern day, collection highlights and pieces on loan from all corners of the globe... There's something here to satisfy all tastes. But the name ALBERTINA doesn't just represent a building and a museum – most importantly, it represents one of the oldest, largest and best-known collections of art in the world.

Unique and unparalleled:  
it's no surprise that the ALBERTINA  
was listed as one of the Seven Urban  
Wonders of the World in 2018

A second location was opened in  
2020 with the ALBERTINA MODERN,  
which has since become Vienna's first  
choice for modern and contemporary art.

# ART APPRECIATION OF THE HIGHEST LEVEL

## HABSBURG STATE ROOMS

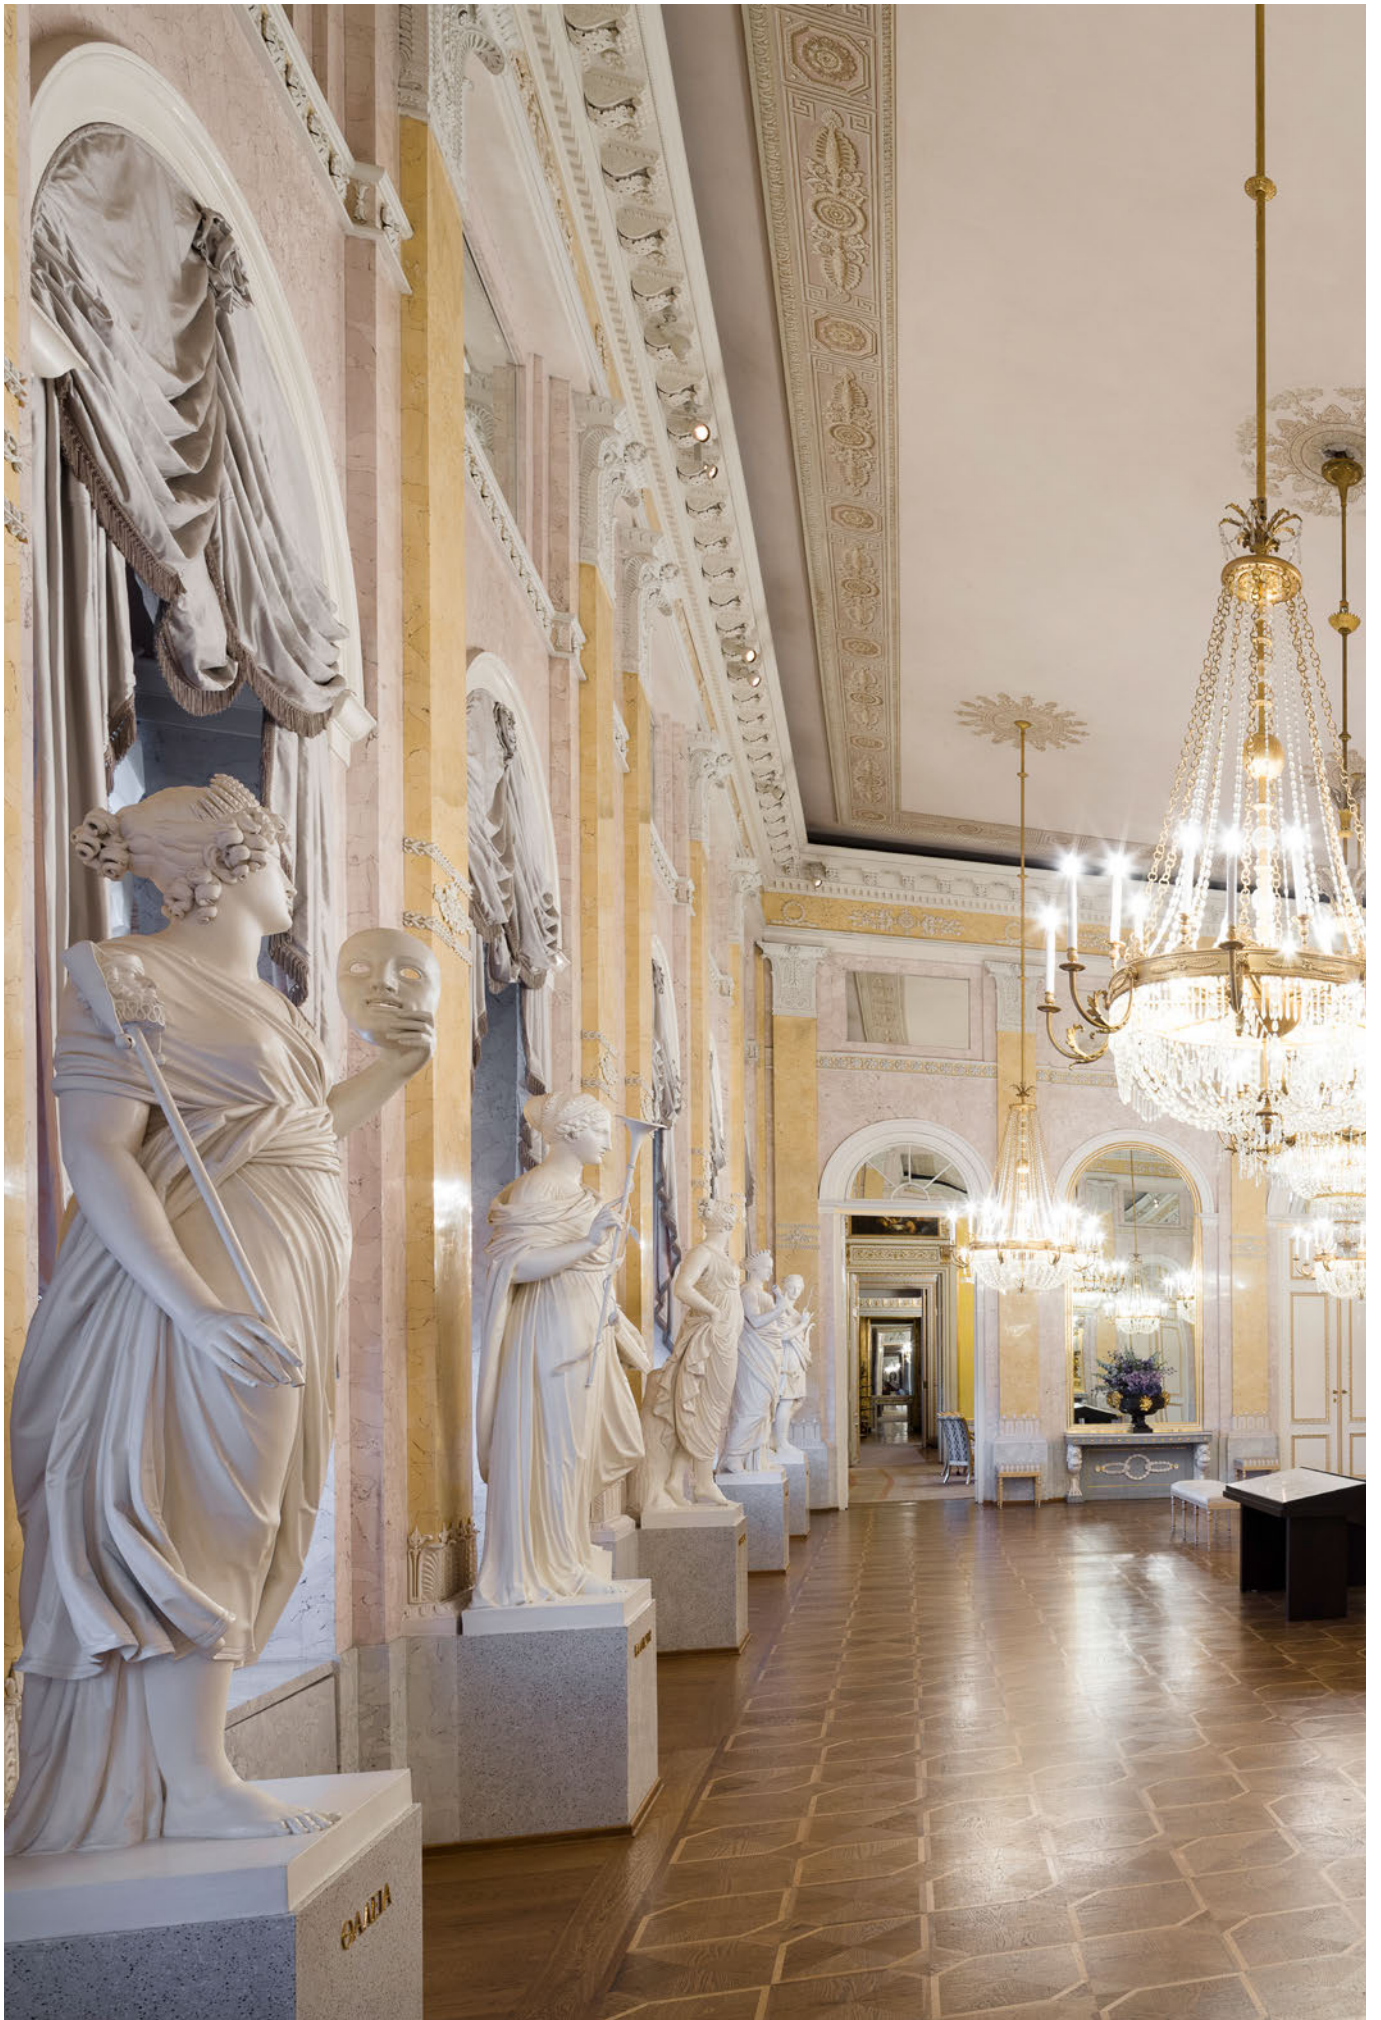

ALBERTINA

The typical Viennese blend of old and new in the modern exhibition building and historic former imperial palace is what makes the ALBERTINA special as a tourist attraction. 20 state rooms that have been restored and furnished to their original design take you back in time to that of their previous Habsburg residents.

How did the founder of the ALBERTINA Duke Albert von Sachsen-Teschen and his wife Marie-Christine

live? What was it like to be the favourite daughter of Queen Maria Theresa and indulge in all the luxury of courtly life? Original inlay floors, richly coloured silk tapestries, chandeliers, sumptuous furniture and other opulent finishing touches bear witness to the grandeur of times gone by and allow you to experience up close the extravagant lives of the archducal family from 250 years ago.

# MONET TO PICASSO

## The Batliner Collection

**A date with Monet, Picasso & Co.:**  
The 500 pieces in our permanent display collection are sure to invite debate on classical modernism.

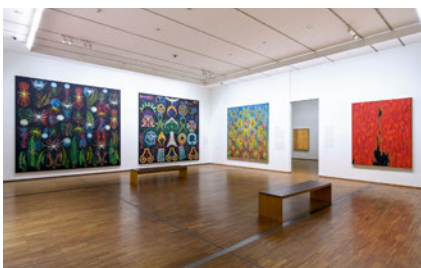

In the Batliner Collection, a long-term loan, the ALBERTINA is in possession of one of Europe's largest and most prestigious collections of classical modernism artworks.

In its own dedicated gallery, the most prominent stylistic trends from impressionism to cubism are on display 365 days a year. To start off, there are works by French impressionists and post-impressionists such as Monet, Degas, Cézanne, Renoir and Matisse. Further highlights come from the examples of German expressionism with pieces from the two main groups of artists, Die Brücke (The Bridge) and Der Blaue Reiter (The Blue Rider), as well as from the Russian avant-garde, represented by Malevich, Kandinsky and Chagall. There is also an in-depth focus on Austrian works by Kokoschka and the New Objectivity. Surrealism comes in the form of Magritte, Max Ernst and Miró. Rounding off the exhibit are works by Picasso, and in addition to his early cubism, his later, more experimental pieces are most certainly worth seeing.

## TEMPORARY EXHIBITIONS

### 14 different exhibits every year

Alongside the permanent display collection, the ALBERTINA is also home to a diverse programme of exceptional temporary exhibitions. Displayed in four different halls, they normally run for periods of three months each throughout the year. The museum's own exhibits are combined with international loan pieces to create unique compilations. The presentations cover periods of art history from the Middle Ages

to the present day, showcase a particular artist or embrace a broad theme. This means none of the numerous artistic directions miss out, with all techniques represented: from painting, sculpture, drawing and photography to installations, video and readymades.

## A second location

**NEW**  
OPENED IN 2020

The ALBERTINA MODERN is the latest addition to the Viennese museum experience and the place for Austrian and international art from 1945 to the present day.

Just a few minutes' walk from the main museum building, the gallery is a new and exciting exhibition space of over 2,000 square metres. The historic building dating from 1865 was renovated in keeping with its original design and creates an interesting contrast with the contemporary pieces on display within.
